06th April, 2024

Knowledge Partners

AgHub is a First of its Kind Incubator in a Hub and Spoke model with its innovation hub at PJTSAU, Hyderabad that caters to food and agritech start-ups, aspiring student entrepreneurs PAN India. The Rural Innovation Spokes caters to rural innovators and entrepreneurs seeking to promote rural entrepreneurship among rural youth, women, grassroots innovators, farmers & FPO's in Tier-II and Tier-III towns. It is a Rural Business Incubation Centre funded with the earnest support of NABARD. For More www.ag-hub.co

The World BioProtection Forum (WBF) is a non-profit organisation that encourages collaboration between the biocontrol industry and academia in the AgriTech sector, while working to secure a regulatory framework that supports sustainable agriculture. Membership is open to all stakeholders interested in cooperating in areas of common interest, to ensure the successful development and commercialisation of products that are integral to clean, green agriculture.

Developing India-Australian Collaboration Towards a Horticulture Centre of Excellence.

The project was undertaken between the 3rd and 14th of November 2019, and this saw Genesis Horticultural Solutions working to identify suitable personnel to create a collaborative team of horticulture specialists, suppliers and educators/trainers in stage one to develop the foundations for a commercially viable Australian Horticulture Centre of Excellence in India. The intent of the project being to provide training and train-the-trainer services – beginning with hydroponic and protected crop growing for the commercial vegetable industry.

About Ag-Arc Vertex

Ag~Arc Vertex

Ag-Arc Vertex is the training and upskilling arm of AVN Innoventures Pvt. Ltd and Svasti Consultants & Services which works to upskill agriculture students, graduates, and entrepreneurs and get them job- or industry-ready so they can benefit the underserved and deprived segments across PAN India. Our main aim is to bridge the skill gap and make individuals more proficient.

Strategic Vision

The core idea behind our company is to resolve issues within the Indian farming ecosystem through modern technology by bringing together the entire laundry list of agricultural value chain offerings under an integrated platform.

About Agri Sphere

Agri Sphere is an AI-ML-enabled learning platform in agriculture and allied. In a pioneering initiative, we are breaking new ground by establishing a transformative training program that serves as a bridge between academia and industry. This groundbreaking endeavor focuses on agriculture and allied fields, offering participants a unique blend of practical skills, academic insights, and real-world outcomes. Our mission extends beyond merely closing the skill gap; we are dedicated to providing tangible results through a holistic approach to education.

Our Vision

To revolutionize the agriculture and allied fields by bridging the gap between academia and industry through our transformative training program that equips participants with practical skills, academic insights, and real-world outcomes.

Our Mission

We aim to empower participants in agriculture and allied fields with a unique blend of practical skills, academic insights, and holistic education. By closing the skill gap, our goal is to create tangible results and foster innovation in the industry.

Why Learn Agri Sphere ?

13+ Modules

230+ Hours

50+ Industry Leaders

10 Impactful Certifications

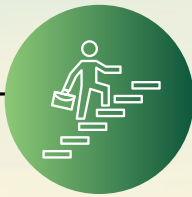

Recorded Videos available post training

Be in demand

Boost your career prospects by gaining expertise from leading industry figures in agriculture ensuring you stay in high demand.

Build the future

Guaranteed job placement, internships, entrepreneurial support, overseas study opportunities, and job assistance*

Stay Tuned

Stay connected with us to remain informed about upcoming opportunities in the agricultural and allied sectors.

Agri Sphere 2024

India's First Agri and allied Career Building Training Program !

SAT-SUN

April 2024 - January 2025

Course Highlights

Career Guarantee

Jobs, Internships, Scholarship, Entrepreneurship Incubation, Abroad study assistance, Overseas Job assistance*

Downloadable content and Recorded Trainings

Downloadable PowerPoint presentations and study materials, You can attend post-training recorded sessions.

8 Days in a month

Our training sessions, scheduled exclusively on weekends (Saturday & Sunday) ensuring minimal disruption to your academic or work schedule.

Learn online

Live training programs or access recorded sessions at your convenience.

Doubt clearing

Even post live sessions, continuous support for clarify the doubts.

13+ Modules

Our meticulously curated 10 modules designed to propel your career development.

Certificate of Training

10 Impactful Certifications

Schedule: Modules

Month	Module
April	EXIM - Export Import Training Program Agri & Food Processing: MSME / Export / Trade
May	360 Agri Inputs Training Program
June	"The Seed - Seed to Life" Training Program
July	Renewable Energy & Climate Resilience, Biomass / Agri Biowaste Climate Resilient Agriculture
Aug	Farming allied Smart Business: Bee Keeping, Stingless Bee Aquaponics & Fisheries: Fishery - Biofloc, Shrimp, etc
